PUBLIC NOTICE

OLIFANTSNEK DAM OVERFLOW

Members of the community are notified of the overflow of the Olifantsnek dam. The dam is at full capacity and is overflowing.

The overflowing of the dam puts more water than normal in the Hex river and communities downstream may be affected, towards the Bospoortdam. This is not flooding conditions; it is just an increased flow compared to normal, but communities are encouraged to be vigilant and high alert when travelling in the area.

Updates will be provided, so please be on the lookout for communication on our social media pages, and WhatsApp groups.
