PUBLIC NOTICE

WATER SUPPLY CHALLENGES

Residents and businesses supplied from the Rand Water Barnardsvlei system.

Rand Water, as one of our main bulk water suppliers, is under strain and is having water supply challenges. This is caused by rising water demand, low dam levels, changes in precipitation patterns, droughts, and water scarcity. This has resulted in lower inflow and pressure in the Barnardsvlei system. Water restrictions will be implemented to ensure equitable distribution of the available water supply, and the following areas will be affected.

Affected Reservoir / Meter point	Affected Area
Ikemeleng Meter	Ikemeleng
Karee Meter	Marikana
Bokamoso Reservoir	Bokamoso
Kaferskraal	Lapogang
N4 Shell garage	Rustenburg N4 Shell garages
Cashan Reservoir	Waterfall east Cashan Cashan extensions and Protea Park
Stokkiesdraai Reservoir	Waterkloof extensions Savannah Falls Waterfall East Hex River Lifestyle Estate Hex River Village
Boschdal Reservoir	Boschdal Part of Safari Gardens Part of Cashan Tierkloof Reservoir and a part of Safarituin
Booster Reservoir	Part of Rustenburg CBD East End and Zinniaville

We kindly encourage all consumers to make a concerted effort to use water sparingly to help manage the water supply. We sincerely apologise for any inconvenience this may cause and truly appreciate your cooperation.

Ends//
